

## **Update 1 to COVID-19 Screening: Effective Immediately**

**Dear Residents, Resident Families, Guests/Visitors, Vendors and Staff:**

**Following President Trump's declaration today of a National Crisis due to the COVID-19 (Coronavirus) pandemic and the upcoming request from the Centers of Medicare & Medicaid Services (CMS), we are complying with the recommendation to restrict all non-essential personnel and visitors to our community for a minimum of the next 30-days except for those residents in the last stage of end of life diagnosis.**

**Our pre-screening procedures remain mandatory for any individuals (including paid staff and third-party healthcare providers) who are allowed to enter the community.**

**We know that this is difficult, but please be assured that it is for the continued health and safety of each resident and for the staff providing their care.**

**Please utilize your phones, cards & letters, and social media to stay connected to your loved ones.**
