

Update 7 to COVID-19
Appropriate Mask/Shield/Coverings
& Prescreening Reminder:

June 23, 2021

Dear Residents, Resident Families, Guests/Visitors, Vendors and Staff:

While governmental agencies (state or federal) reduce their COVID-19 mandates, Veritas communities will continue to require that all staff, essential care workers, and visitors wear appropriate mask/shield/coverings and social distance while in common areas on community property as well as comply with our prescreening procedures to enter the community.

For communities with approved communal dining and/or activities, residents are not required to wear mask/shield/coverings if all residents in the group have been vaccinated. However, we do encourage that resident wear their mask/shield/coverings in the common areas when not involved in communal dining or group activities.

We feel strongly that this is prudent for the continued health and safety of each resident and for the staff providing their care.

Be safe and stay well!

Richard Landers

Vice President of Administration
